WHILE SUPPLIES LAST: 
TIME FOR COUNTRIES TO INVEST MORE IN CONTRACEPTIVES

ACCESS TO CONTRACEPTION IS TRANSFORMATIONAL 
FOR WOMEN AND COMMUNITIES.

BUT THE WORLD IS ON THE VERGE OF A CONTRACEPTIVE CRISIS

DONORS ARE ALREADY FALLING FAR SHORT OF THEIR PROMISES

UNFPA IS FACING A NEARLY 40% BUDGET SHORTFALL

GREATER GENDER EQUALITY
EDUCATIONAL ATTAINMENT
ECONOMIC DEVELOPMENT

AND MILLIONS OF WOMEN'S LIVES ARE AT STAKE

MOST LIVE IN SUB-SAHARAN AFRICAN COUNTRIES WHERE GOVERNMENTS ARE HEAVILY DEPENDENT ON DONOR FUNDING

OF THE COUNTRIES WITH DATA

42% have no budget line for contraceptives for women
65% cover less than 10% of women's contraceptive needs
92% rely on donors to meet even half of the contraceptive needs of women
46% rely entirely on donors to meet the contraceptive needs of women

WITHOUT FUNDING, WOMEN WILL LOSE THE RIGHT TO MAKE THEIR OWN REPRODUCTIVE HEALTH DECISIONS.

AND MILLIONS OF WOMEN'S LIVES ARE AT STAKE

WHAT CAN WE DO?

DONORS NEED TO STEP UP TO FILL THE CURRENT FUNDING GAP

DEVELOPING COUNTRY GOVERNMENTS MUST INVEST MORE IN FAMILY PLANNING AND REDUCE THEIR RELIANCE ON DONOR FUNDING

STABLE CONTRACEPTIVE SUPPLIES WILL ENSURE THE HEALTH AND WELLBEING OF WOMEN NOW AND IN THE FUTURE
